THE HON. SRI A. B. SHETTY :—" (*a*) The resolution was received by the Director of Public Health and not by the Director of Medical Services.

" (*b*) The Director of Public Health has asked the Municipal Health Officer to take necessary action."

SRI K. P. GOPALAN :—" Sir, may I know from the Hon. Minister for Health whether the Government are aware that the municipal council has already passed a scheme and an estimate has been prepared and the scheme has been sent to the Government and if so, what action the Government have taken on the recommendation of the municipal council? Also, may I know from the Hon. Minister whether the sullage pool affects the health of the people in that area and if so, will the Government consider this question when the schemes under the Second Five-Year Plan are taken up? "

THE HON. SRI A. B. SHETTY :—" The sullage tank is kept clean and the water is diverted further down; the Municipal Health Officer is supervising the sanitary work in this area. As regards the Second Five-Year Plan, I hope that when the drainage work is taken up, it would be possible to attend to this sullage tank."
